Find It. Fix It. Fund It. It's really that simple.

This week, NCHH and the National Safe and Healthy Housing Coalition announced Find It, Fix It, Fund It, an action drive that urges Congress and the Administration to develop and implement a bold, comprehensive national plan to eliminate lead paint hazards and replace lead pipes.

"Lead poisoning is a preventable tragedy," said NCHH's Executive Director, Nancy Rockett Eldridge. "This call to action lays out the necessary steps to win the fight against lead poisoning—to find lead hazards before they harm children, to fix these hazards using both short- and long-term proven methods, and to fund these critical efforts."
