Total	\$119.76	\$120	\$114	\$110	\$110	\$110	\$145	\$230	\$279	\$356

Dollars in millions.

Justification

Office of Lead Hazard Control and Healthy Homes – This increase would allow the office to surpass the \$230 million recommended for lead activities alone in 2000 by the President’s Task Force on Environmental Health Risks and Safety to Children. This request also accounts for inflation since the Task Force report and provides increased and robust funding for the Healthy Homes Program.
