

Healthy Homes at HHS.

Forty percent of U.S. homes have at least one significant health or safety hazard that places American families at unnecessary risk for injuries and illness, such as lead poisoning, asthma, carbon monoxide exposure, fire, and lung cancer; fortunately, evidence-based, cost-effective solutions exist.

Healthy homes programs at HHS **work to educate people about ways to make homes healthy and combat the hazards posed by unhealthy housing.** The programs highlighted below, which cover topics including maternal and child healthcare, home visiting services, and home energy needs, **illustrate the intersection of health and housing issues.** HHS' work also supports and complements other programs and departments across the federal government (e.g., CDC, EPA, HUD). For more information on why support for all federal healthy homes programming is critical, including within HHS at the Centers for Disease Control and Prevention, please **see NCHH's other agency fact sheets.**

 <p>TITLE V Title V Maternal and Child Health Services Block Grant Program</p>	<p>Provides funds to states for pre- and postnatal care, health assessments, and preventive child health services, such as immunizations care, targeted at low-income and at-risk communities.</p>	 <p>Funded at between \$662 million and \$634 million since 2010.</p> <p>State/local recipients provide \$3 in matching funds for every \$4 in federal funds.</p>	 <p>In 2016, states reached almost 54 million pregnant women, infants, children, and others through the Title V Block Grant.</p>
<p>LIHEAP Low Income Home Energy Assistance Program</p>	<p>Provides assistance to low-income households with energy needs, such as heating in winter and home repair.</p>	<p>Funded at between \$3.3 and \$4.5 billion since 2010.</p>	<p>In 2015, 45 states provided an estimated \$336 million for weatherization and energy-related home repair.</p>
<p>HOME VISITING Maternal, Infant, and Early Childhood Home Visiting Program</p>	<p>Provides home visits to low-income expectant parents and families of young children to set goals and measure outcomes in health, development, education, and other areas.</p>	<p>Funded at about \$400 million since 2013, supporting grants in all 50 states, territories, and tribal organizations.</p>	<p>In FY16, programs in 50 states, DC, and five territories served approximately 160,000 families. Over 3.3 million home visits have been provided over the past five years.</p>
<p>CHIP Children's Health Insurance Program</p>	<p>Provides health insurance coverage to low-income children.</p>	<p>Through the Health Services Initiative, states can use up to 10% of expenditures for non-traditional services, including lead prevention and abatement in paint, water, and soil.</p>	<p>19 states are using CHIP funds for nontraditional services (2017). Michigan and Maryland both have HSI programs using CHIP funds for lead abatement in homes.</p>
