

Title X of the Housing and Community Development Act shifted the national approach from reaction to prevention.

The Enterprise Foundation and the Alliance to End Childhood Lead Poisoning establish the National Center for Lead-Safe Housing, with funding from Fannie Mae Foundation. Nick Farr named founding and executive director.

1992

1993

Designed and managed the groundbreaking Rochester Blood and Dust Study establishing the relationship between settled lead dust, levels and blood lead levels in children.

Developed the first comprehensive *Guidelines for The Evaluation and Control of Lead-Based Paint Hazards in Housing*, with funding from HUD.

1994

1995

NCHH Board and staff play key roles in the Congressionally chartered Lead-Based Paint Hazard Reduction and Financing Task Force as mandated by Title X of the Housing and Community Development Act of 1992.

Federal Lead Disclosure Rule takes effect. Millions of homeowners find out about lead during housing transactions.

Helped nine states develop certification programs for contractors working with lead-based paint hazards.

1996

1997

Completed the national evaluation of the HUD lead hazard control grant program demonstrating that treated housing units reduced blood lead levels by 37% and lead dust by 78%.

↓ 78%

Completed HUD-funded study to improve the effectiveness of the Lead Risk Assessment protocol. Enrolled in the study over 250 homes with young children in Baltimore, Milwaukee, and New York City.

1998

1999

Published *Another Link in the Chain* with the Alliance to End Childhood Lead Poisoning, on the lead case management and environmental follow-up policies of 50 states and Washington, D.C.

HUD lead-based paint regulation for federally owned residential property and housing receiving federal assistance takes effect.

In response, NCHH delivered technical assistance and training in 37 cities to 1,900 individuals on how to help implement the rule.

2000

2001

Renamed the National Center for Healthy Housing to reflect broadened mission: to create healthy and safe homes for children through practical and proven steps.

National Center for Healthy Housing

Trained over 15,000 workers in lead safe work practices to help implement and regulate in federally assisted housing with HUD sponsorship.

Nick Farr retires. Rebecca Morley appointed Executive Director.

2002

2003

Launched the National Healthy Homes Training Center and Network to train public health, environmental health, and housing professionals in healthy housing principles.

Hurricane Katrina hits the Gulf Coast with property damage estimated at \$81 billion. NCHH launched a Healthy Rebuilding Demonstration Project in New Orleans, and developed a how-to guide.

Conceptualized and piloted the "one-touch" service delivery model in Boston to streamline and cost-effectively integrate the way we deliver programs for lead, asthma, injury prevention, and housing rehab.

Released report, "How Healthy Are National Green Building Programs?"

2004

2005

2006

2007

2008

Helped create 26 lead-safe and healthy childcare homes in upstate New York, housing more than 150 children.

Developed the Pediatric Environmental Home Assessment, an online training tool tailored for home visiting nurses.

Joined with the National Environmental Health Association to launch the "Healthy Homes Specialist Credential."

**National Safe and Healthy
Housing Coalition**

Created the National Safe and Healthy Housing Coalition, composed of leading organizations from the fields of affordable housing, public health, environment, and energy efficiency.

Released results of the State of Healthy Housing, the first comprehensive study and ranking of housing conditions in 45 major metropolitan areas across the nation.

2009

2010

Published the first comprehensive review of healthy homes interventions with Centers for Disease Control and Prevention.

Launched training network in response to EPA's Renovation, Repair, and Painting rule. Over 18,000 contractors trained.

Combined forces with the Alliance for Healthy Homes to consolidate and strengthen efforts to advance healthy homes and communities.

ALLIANCE FOR HEALTHY HOMES
Working for Affordable Healthy Housing for All

Co-edited *Healthy and Safe Homes: Research, Practice, and Policy*, about housing conditions and solutions to improve public health.

Created the Grassroots Advocacy Network for Healthy Housing.

2011

2012

Reached milestone of over 15,000 people trained through the National Healthy Homes Training Center and Network.

Embarked on a health impact assessment of the proposed Baltimore-Washington Rail Intermodal Facility, with funding from the Health Impact Project.
